

Abu Obaid Group, announces the launch of **Polycarbonate Sheet Solutions**, engineered for modern construction needs across the Saudi Arabia. The product range includes **Solid, Textured, Diamond, prismatic, Frosted, Corrugated, Galaxy** sheets with high impact strength, UV protection, and excellent thermal insulation — ideal for roofing, skylights, greenhouses, and industrial cladding.

“Our goal is to provide durable, energy-efficient materials that support today’s architectural and industrial projects,” the company stated.

The new polycarbonate range is now available for distribution throughout Saudi Arabia.
