Who we are

At AKINCO, we are driven by a deep commitment to resolving sound and noise challenges for our clients. Our goal is to apply advanced technical expertise to deliver solutions that are not only acoustically effective but also aligned with each client's functional needs, aesthetic preferences, and budgetary considerations.

What We Do

We honor our commitments and believe that transparency and integrity are essential to long term success. As a trusted acoustic solutions provider serving clients globally regardless of size or location we begin by thoroughly understanding each project's unique requirements. These insights are translated by our application engineers into a comprehensive briefing document, forming the foundation for a tailored solution.

In addition to our standard product offerings, we are well positioned to deliver bespoke acoustic systems. Our commitment to excellence ensures that we continue to provide high quality Acoustic Space and Noise Control solutions as we advance and promote this dynamic industry. We source premium grade products from the UAE, Europe, and the UK, maintaining competitive pricing without compromising quality.

Our Track Record of Acoustic Excellence

Auditoriums & Halls: Precision-engineered solutions to ensure clear sound distribution, minimal reverberation, and exceptional listening experiences.

Office Interiors: Acoustic treatments and soundproofing systems that enhance productivity, privacy, and overall workspace comfort.

Recording Studios: Professionally designed acoustic environments that meet the highest industry standards for sound clarity and isolation.

Educational Institutions: Custom acoustic solutions for classrooms, lecture halls, and auditoriums, promoting better communication and learning environments.

Mosques & Religious Spaces: Specialized acoustic designs that provide balanced sound projection and clarity for sermons and prayers.
